Exam preparation text:

Microsoft .NET Framework 2.0 Application Development Foundation, ISBN 978-0-7356-2277-7, by Tony Northrup and Shawn Wildermuth. Although the book is used also for the 2005 Framework 2.0 Exam, it is still the recommended resource for the 3.5 exam series as well.

Study group approach:

- **Limited to four (4) months**
- **Fairly intense, emphasis on exam preparation**
- **Covers 2 book chapters per session**
- **Peer presentations of Lab code reviews**
- **Individual learning, group coaching**
- **Classes start June 14 – Chapters 1 and 2**

This exam is required as part of all MCTS Certifications. Upon completion of this study group exam preparation in September, the group will begin preparation for Exam 70-562: TS: Microsoft .NET Framework 3.5, ASP.NET Application Development, to be followed by other studies for the MCTS and MCPD (Professional Developer) certifications.

Course is open to all NTPCUG members (www.ntpcug.org, dues \$36 per year). For further information, please contact Tom Perkins (tomperki@gmail.com) or Chris Morgan (chris.morgan@ntpcug.org)
